“For the Basic First Purchase Stock Point, the minimum order quantity for the initial order shall be as specified in the chart provided above. The First Purchase Stock Point may be purchased by selecting a minimum of three different product categories or through a combination of multiple products from the listed items. If only one product category is selected, commission will be applicable solely at the basic category rate.

For subsequent orders, individual products may be ordered separately; however, dispatch will be processed only upon fulfillment of the prescribed minimum order quantity.”
